**Adhesives** (see **Dyes and chemicals, new**)

**Air compressors** (see **Compressed air**)

**Air conditioning and cleaning**
- American Thread's Cherokee spinning plant 'displays tomorrow today' ... May 52
- Gas-fired fume incineration unit — Greenville Show ... Dec. 74
- How r.h. affects static electricity ... July 115
- Humidifier brightens dull, greyed colors (CC) ... Oct. 78
- Mechanical cleaners and air-handling equipment — Greenville Show ... Dec. 75
- The pace of change 1868-2068 (Centennial Issue)
  - Buildings and services
    - The next 100 years ... Apr. 230
    - The past 100 years ... Apr. 233
- Springs Mills spends $9.5-million to modernize its Fort Mill plant ... June 56

**American Association of Textile Chemists and Colorists** (see **Associations**)

**Associations**
- American Textile Manufacturers Institute annual meeting report: Textile imports are a national problem ... May 72
- ATMI seminar and American Yarn Spinners Association — meetings gavel down on imports ... Nov. 78
- ATMI's Textile Data Processing Seminar: computer spells control — and profit ... Sept. 60
- Disposables Assn.: Disposables boom — so does new association (FYF) ... Dec. 151
- Fiber men warned on EEC competition; also hear about new yarns, spinning process (FYF) ... May 89
- Georgia Textile Operating Executives meeting — slashing man-mades keys meeting ... Dec. 67
- 'Good morning, welcome to...' the Georgia TOE, the STA, the NKOA, the AATT, the SCTMA, the... ' ... June 74
- Greenville Show 1968
  - Products that made news ... Dec. 68
  - Finishing products that made news ... Dec. 107
- National Cotton Council 17th Chemical Finishing Conference — better flame retardants, durable press ahead ... Nov. 128
- Southern Industrial Relations Conference meeting report: How to get employees to care ... Oct. 65
- Southern Textile Exposition see Greenville Show
- 'Stressful seventies' will see battles in fiber categories, Laun tells TRI (FYF) ... May 88
- Textile Quality Control Association meeting — 4 topics hit it big ... Nov. 77
- Textile Quality Control Association meeting report: ZD efforts pay off, say TQCA members ... May 81
- Textile Research Institute — flame retardancy consumes research interest ... May 64

**Automation**
- Cone bagging comes of age at S-T-C ... June 78
- Punchcard warehousing clicks, saves at Fiber Industries ... Nov. 74
- Springs Mills spends $9.5-million to modernize its Fort Mill Plant ... June 56

# B

**Beaming** (see **Warp preparation and beaming**)

**Bearings**
- Bearings — Greenville Show ... Dec. 92

**Belts, conveyor** (see **Material handling**)

**Bleaching** (see also **Chemical treatment and finishing**)
- Aldon Rug Mills
  - Pt. 1 Aldon makes what it can sell, and boosts sales $40 million since 1962 ... Oct. 60
  - Pt. 2 Aldon goes South to expand in tufteds ... Oct. 63
  - Pt. 3 Finishing makes the carpet ... Oct. 98
- Batch-bleaching with sodium chlorite ... Jan. 108
- Caustic recovery saves $700 weekly (CC) ... Mar. 83
- Chlorite bleaching needs no inhibitors ... July 161
- Combined process produces mercerized, bleached cotton thread continuously ... July 162
- Continuous bleaching process works well on dark keratinous fibers ... Jan. 106
- Cranston Print Works: better desizing ... Dec. 104
- Dyeing knits: a 3-way play at Newram ... Sept. 98
- Fact File — Equipment Update: dye padders ... July 145
- High-speed, open-width bleaching cuts down creases and rub marks ... Feb. 87
- J box cuts two-stage bleaching time (CC) ... Feb. 113
- Jute: new process makes lightfast jute possible ... Aug. 129
- Kendall looks for $500,000 a year saving on $5.5-million Pelzer modernization ... Mar. 54
- Loose wool scouring set (ESN) ... Feb. 144
- Magee makes the big move into indoor-outdoor carpets ... Jan. 73
- Open-width washing machine (ESN) ... Feb. 152
- Optical brighteners aid crease-resistant finishes ... Nov. 117
- Optical brighteners by Thermosol methods ... Jan. 108
- Optical brighteners may be chosen to work together ... Feb. 89
- Optical brighteners produce durable whites ... July 162
- The pace of change 1868–2068 (Centennial Issue)
  - Chemical treatment and finishing
    - The next 100 years ... Apr. 164
    - The past 100 years ... Apr. 171
- Pressure vessel — Greenville Show ... Dec. 108
- Scouring machine (ESN) ... June 146
- 60,000 pounds of circular knits is all in a day's work at Carolina Mills ... Oct. 106
- Sodium sulfite plus chelating agent lets you bleach and dye wool in one run ... Mar. 96
- Solvent degreasing of cottons ... Mar. 97
- Spinners Processing Co.'s no-fuss, no-feathers approach to finishing cotton yarns. ... Sept. 93

**Blended fabrics**
- Acrylic-kempy wool blend gives a shetland look to knitwear (FYF) ... Sept. 121
- Knits that boast new acrylic-linen blend retain shape after machine washing (FYF) ... May 87
- Lightweight wool-like acetate-nylon is bonded, but can be drycleaned (FYF) ... June 125
- Polyester-linen blend is shantung look-alike (FYF) ... Sept. 120
- Rayon-nylon shirting has crease-resistant finish (FYF) ... June 126
- 65-35 rayon-polyester aims at over-the-counter (FYF) ... Dec. 152
- Ski underwear slaloms on two-layer blend core (FYF) ... Sept. 120
- Underwear — a new field for Quintess polyester (FYF) ... Feb. 122

**Blending** (see **Opening, picking, and blending**)

**Building construction** (see also **Maintenance, building and grounds**)
- American Thread's Cherokee spinning plant 'displays tomorrow today' ... May 52
- Berwick Weaving Inc. — French shuttleless looms turn on versatility in weaving — first U.S. installation ... June 50
- Eagle finds a new way to condition the hard-to-heat tufting plant ... Nov. 70
- A flip of the finger saves $100 (CC) ... Feb. 114
- Johnston Mfg.'s giant sales-yarn plant produces 155,000 pounds a week ... Feb. 63
- Kendall looks for $500,000 a year saving on $5.5-million Pelzer modernization ... Mar. 54
- The pace of change 1868–2068 (Centennial Issue)
  - Buildings and services
    - The next 100 years ... Apr. 230
    - The past 100 years ... Apr. 233
- Stevens' new Walterboro plant — glass weaving spells total design ... Feb. 50
- Television saves $8,000 annually (CC) ... Feb. 113
- What you need to build a hosiery finishing plant ... Jan. 119
- ZD efforts pay off, say TQCA members ... May 81

Business and the urban crisis — McGraw-Hill special report ... Feb. C1

# C

**Calculations, mathematical** (see **Formulas and calculations**)

**Capacity, industry** (see **Economics, textile industry**)

**Capital spending** (see **Economics, textile industry; Management**)

**Carding**
- Air currents clean cards (ESN) ... July 233
- American Thread's Cherokee spinning plant 'displays tomorrow today' ... May 52
- Automated bale-to-sliver system (ESN) ... Jan. 133
- Card (ESN) ... Jan. 136
- Card, chute fed type (ESN) ... Aug. 154
- Card cleaning system (ESN) ... Feb. 130
- Card makes carpet sliver fast (ESN) ... Sept. 129
- Carding machine has new eccentric (ESN) ... Aug. 149
- Carding machine runs leafy fiber (ESN) ... June 133
- Carding through twisting system (ESN) ... Jan. 134
- Carpet-yarn spinning (ESN) ... Feb. 128
- Chute-fed carding system (ESN) ... Feb. 130
- Collins & Aikman: Troy plant ... Dec. 59
- Conso Products caps its vertical integration ... Sept. 50
- Continuous yarn-making (ESN) ... Feb. 128
- Cotton and worsted system (ESN) ... Feb. 130
- Crazy Horse Mills ups production 600% ... May 78
- Doffing roll (ESN) ... Aug. 156
- Fact File — Equipment update: cards ... July 142
- Fiber hooks — how they affect yarn processing performance ... Feb. 58
- Greenville Show products ... Dec. 70
- Grinder boosts web quality (ESN) ... Oct. 111
- Hardened rolls save $200 annually (CC) ... Sept. 116
- Hartwell Mills: You CAN teach an old mill new tricks ... Jan. 64
- How hard flats perform in five plants ... July 99
- How seven plants operate: carding ... July 63
- Jordan jumps the generation gap
  - Pt. 1 Management and manufacturing ... Sept. 62
- Kendall looks for $500,000 a year saving on $5.5-million Pelzer modernization ... Mar. 54
- The pace of change 1868–2068 (Centennial Issue)
  - Yarn manufacturing
    - The next 100 years ... Apr. 92
    - The past 100 years ... Apr. 98
- Precarding at card — TQCA meeting ... Nov. 77
- Republic Textile Mills: Old weaving mill to new yarn plant — a 4-mo. changeover ... Jan. 67
- Riverside Mills
  - Pt. 1 Continuing modernization keeps carpet yarn output high ... May 68
  - Pt. 2 Finishing operation caps company's forward integration ... May 123
- Sadie Cotton Mills: how a small independent boosts yarn output 55% in three years ... Oct. 66
- Short-line worsted system (ESN) ... Jan. 134
- Sliver monitor (ESN) ... June 140
- Springs Mills spends $9.5-million to modernize its Fort Mill plant ... June 56
- Stop motion (ESN) ... Mar. 152
- Stop motion prevents losses (CC) ... June 118
- Wool and worsted system (ESN) ... Feb. 130
- Worsted combing and spinning system (ESN) ... Feb. 134
- Worsteds and man-mades system (ESN) ... Jan. 133

**Carpets**
- Aldon Rug Mills
  - Pt. 1 Aldon makes what it can sell, and boosts sales $40 million since 1962 ... Oct. 60
  - Pt. 2 Aldon goes South to expand in tufteds ... Oct. 63
  - Pt. 3 Finishing makes the carpet ... Oct. 98
- AATCC organizes new group to promote tufted technology study ... Feb. 88
- Backing battle pits jute vs. man-mades — special carpeting report ... Nov. 58
- Barwick Mills boosts color, styling possibilities for carpeting ... Jan. 114
- Burlington breaks into carpet backing business (FYF) ... Dec. 151
- Canadian Celanese — wide range of man-made fibers gives market flexibility ... Aug. 56
- Carpet printing: a new frontier ... Oct. 102
- Dyeing process used on contract carpeting (FYF) ... Oct. 237
- Eagle finds a new way to condition the hard-to-heat tufting plant ... Nov. 70
- Here's how to tuft new polypropylene primary backing material for carpets (FYF) ... Mar. 73
- Hot-melt system speeds carpet backing by 700% ... Mar. 95
- How to keep quality high on tufted carpets ... July 109
- Magee makes the big move into indoor-outdoor carpets ... Jan. 73
- New carpets feature a variety of patterns (FYF) ... July 199
- Nonwoven polypropylene backing increases tufted carpet strength — TRI meeting ... May 66
- Patterned carpets come on strong at winter market (FYF) ... Feb. 121
- Phillips sets "no-strings" guarantee for needle-punched indoor-outdoor carpet (FYF) ... Dec. 153
- Polymer-modified nylon carpet yarn adds up to reduced soiling effects (FYF) ... Aug. 103
- Rubber carpet backing won't support combustion (FYF) ... Mar. 72
- Vinyl comes to carpet backing ... Aug. 137
- Viscose rayon fibers with increased extensibility for carpets — report from overseas (FYF) ... Feb. 123
- What's going into the 1969 cars? A rundown on fibers and fabrics for car carpets and upholstery (FYF) ... Nov. 91
- Wool plush carpet aims at medium price range (FYF) ... Dec. 153

**Chemical treatment and finishing** (see also **Bleaching; Coated fabrics; Dyeing; Laminated fabrics**)
- Aftertreatment improves washfastness in dyeing ... Aug. 129
- Alcoholic formaldehyde crimps polyamide fiber ... June 86
- Aldon Rug Mills
  - Pt. 1 Aldon makes what it can sell, and boosts sales $40 million since 1962 ... Oct. 60
  - Pt. 2 Aldon goes South to expand in tufteds ... Oct. 63
  - Pt. 3 Finishing makes the carpet ... Oct. 98
- AATCC organizes new group to promote tufted technology study ... Feb. 88
- Ammonia dyeing method for man-made fibers is fast to sublimation, rubbing ... Aug. 131
- Amylopectin-DMEU mix gives stiff finishes ... Jan. 108
- Antifoamers — increase the efficiency of antifoamers by applying them as a fog mixed with air ... Oct. 95
- Antifoamers are low in cost ... May 107
- Antifoams need no emulsifiers ... Sept. 81
- Antistatic finishes
  - Antistatic finish won't corrode machinery ... Feb. 89
  - Antistatic properties conferred on hydrophobic fibers actually increase tendency to pick up soil in use ... June 87
  - Coating substance cuts static charges for fibers ... Sept. 83
  - Epoxide compounds make excellent antistats for polyamide & acrylic fibers ... Nov. 119
  - Polymer-based finishes are durable antistats ... Jan. 107
- Aromatic groups applied to cellulose give protection from rot, weathering, and radiation — SURDD ... June 86
- Aromatic heat stabilizer protects polyester yarn ... July 162

(CC) Cost cutter. (Ed) Editorial. (ESN) Equipment & Supply News. (FYF) Fibers, Yarns, and Fabrics.

Automatic carpet printer (ESN) ..... Feb. 142
Backing battle pits jute vs. man-mades – special carpeting report ..... Nov. 58
Batching machine (ESN) ..... Nov. 166
Beam dyeing machine (ESN) ..... Feb. 158
Better strength, abrasion resistance now possible with halohydrin esters ..... Mar. 97
Binders for glass fabrics impart a soft hand.. Nov. 117
Blue Ridge-Winkler 'one-of-a-kind' system dyes nylon tricot continuously ..... June 92
Boarder handles heavy goods fast (ESN)..... June 133
Boarding and dyeing machine (ESN)..... Feb. 156
Bondatex is hot in flame-bonding ..... June 101
Can sleeves boost finishing 32% (CC)..... Nov. 111
Carbonizer (ESN) ..... Feb. 148
Carpet printing: a new frontier..... Oct. 102
Caustic added to polyurethane fabrics helps them to breathe and shed water..... Mar. 96
Caustic recovery saves $700 weekly (CC)... Mar. 83
Chlordene-based agent is nontoxic moth-proofer ..... Oct. 96
Cloth roller (ESN) ..... Nov. 161
Cloth rolls last 400% longer (CC)..... Aug. 117
Coating cuts maintenance costs 30% (CC) .. Dec. 129
Coatings, backings lead estimated sales of textile resins, finishes in U.S. ..... Dec. 97
Cold dyeing gives level, deep shades ..... Aug. 130
Combination of finishes gives good oil repellency and moderately good water repellency – SURDD ..... June 85
Combined process produces mercerized, bleached cotton thread continuously ..... July 162
Continuous beam washer (ESN)..... Feb. 152
Continuous dyeing machine (ESN) ..... Jan. 159
Continuous washer (ESN)..... Jan. 158
Cranston Print Works: better desizing..... Dec. 104
Crease resistance
CR process improves abrasion, tear strength ..... Dec. 99
Crosslinking of certain polymers on the surface of cotton fiber gives excellent CRA values – SURDD ..... June 85
Heatsetting of peroxide improves CRA of acrylics ..... Oct. 94
Optical brighteners aid crease-resistant finishes ..... Nov. 117
Perfluoropolyene treatment gives water repellent, crease resistant finish ..... May 108
Proper aging of solutions helps crease resistance ..... Jan. 105
Semi-acetal treatment gives crease resistance..... Jan. 107
Wool-acrylic blends finish makes them bouncy, crease resistant ..... May 108
Crosslinker improves dye fastness to washing ..... Aug. 129
DDI diisocyanate for softeners and stain repellents ..... Mar. 97
Decatizing machine (ESN) ..... Feb. 156
Device post treats yarn at high speed (ESN) . Sept. 130
Drum dryer, perforated (ESN)..... Aug. 152
Drying oven (ESN)..... Dec. 179
Durable embossing decorates acrylics ..... Sept. 82
Durable finish resists oily stains and fire... July 161
Durable mothproofing treatments ..... Dec. 99
Durable press
Ammonia replaces resins for no-iron finishes ..... July 163
Cotton finish offers semipermanent creases . Mar. 96
Fabrics made from treated wool will take durable creases or pleats ..... Nov. 118
Getting durable press for corduroy fabrics the pad-dry-cure way ..... Nov. 122
National Cotton Council 17th Chemical Finishing Conference ..... Nov. 128
Polymer-sized yarns produce fabrics with improved properties when the goods are subsequently given durable press finishes – SURDD ..... June 85
Polymers produce stiff finish fast to laundering and durable..... Sept. 82
Printed bedspreads have permanent-press finish (FYF)..... Feb. 124
Process for wet-fixation of resins..... Oct. 96
Reactant produces delayed-cure DP finish.. Oct. 93
Solvent processing controls DP swelling... June 87
Dyeing machine (ESN) ..... Feb. 154
Dyeing machine has increased strength (ESN) ..... June 134
Dyeing machine, pressure (ESN)..... Aug. 153
Examiner tuber (ESN) ..... Aug. 150
Fabric coating unit runs at high speed (ESN). Dec. 157
Fabric opener (ESN) ..... July 242
Fact File – Equipment Update: dye padders.. July 145
Flame retardants
Alkaline catalyst improves flameproofer ... May 109
Flame retardancy consumes research interest at TRI meeting..... May 64
Flame retardants can provide significant protection against microbial attack (rotting) – SURDD..... June 85
Flameproofer improves crease resistance... Dec. 99
Flammability of vinyl polymers cut by additive ..... Oct. 93
Hydroxylamine sulfate flameproofs acrylics. Aug. 129
National Cotton Council 17th Chemical Finishing Conference ..... Nov. 128
Resin pretreatment gives better flame-proofing ..... Oct. 95
Thiourea or derivatives aid APO flame-proofing ..... Feb. 88
Versatile new flame retardants are applicable as coatings or in foams..... July 161
Floating roll (ESN) ..... Nov. 158
Fluoro compounds exhibit durability to laundering, repel oil, water, soil..... July 163
Formaldehyde alcohol helps put crimp in nylons ..... Mar. 96
Freeze wet fabrics to dry them ..... July 163
French process combines two finishes in one. Feb. 89
Furfural vapors give deep penetration of dyes on acrylic-fiber fabrics ..... Nov. 117
German dyeing process leaves insoluble black pigments in polyester ..... Aug. 130
Glass fiber sizing improves resin adhesion.. Sept. 81
Glycerine-urea process improves melamine resins ..... Jan. 106
Greenville Show 1968: Finishing products that made news..... Dec. 107
Guiders open knits without tension (ESN)... Oct. 111
Heat setter works automatically (ESN)..... May 149
High-pressure winch (ESN) ..... Jan. 159
Horizontal piece-dyeing machine (ESN)..... Feb. 154
How to choose oils for wool processing..... July 170
How to dye wool top continuously – and get more for your money ..... Nov. 126
How to give standard fabrics a three-dimensional send-off ..... Feb. 100
Hydroextractor (ESN)..... Aug. 150
Hydrophilic finishes need no reactant ..... Feb. 87
Insoluble isocyanates give one-stage bonding ..... Oct. 95
Inspection and tubing (ESN)..... Oct. 126
Japanese acid treatment replaces Coronizing. Jan. 106
Jig (ESN)..... Feb. 154
Jute: new process makes lightfast jute possible ..... Aug. 129
Laboratory dyeing machine (ESN) ..... Feb. 136
Layering machine (ESN) ..... Oct. 120
Leveling agents in dye work on wool, cellulosics ..... Aug. 131
Low liquor pH improves carbamate resin finishes..... May 108
Magnesium chloride hexahydrate as a catalyst for resin finishes..... Aug. 131
Man-made fiber boom thrusts constant change upon yarn dyer ..... Aug. 143
Man-made dye, bleach after electric treatment..... Aug. 131
Metal salts improve moisture retention ..... Sept. 83
Microcrystalline nylons aid DP, glass fabrics..... Dec. 98
Mineral oil stains come out easily by solvent-degreasing methods..... Feb. 89
Mixed adhesive works to strengthen polyester-to-rubber bond by 250% ..... Jan. 106
National Cotton Council 17th Chemical Finishing Conference – better flame retardants, durable press ahead ..... Nov. 128
New oxidation-reduction process improves reactive dyeing of wool ..... Jan. 127
Olefin fibers made hydrophilic by a treatment with potassium permanganate..... Nov. 119
Open-width jig (ESN)..... Feb. 148
Open-width processing range (ESN) ..... Feb. 148
Open-width treatment machine (ESN) ..... Feb. 154
Open-width washing machine (ESN) ..... Feb. 152
Organo aluminum will improve olefin dyeability ..... Aug. 129
Oven dries fabrics with radio waves (ESN)... June 134
Ozone reduces wool felting without affecting hand..... Nov. 119
Padder (ESN)..... July 256
Paddle dyeing machine (ESN)..... Feb. 152
Peanut oil applied to polypropylene rope reduces kinking and failure from over-heating ..... June 87
Phenol-formaldehyde mix aids latex-fiber bond..... Feb. 88
Pigment-binding system does not affect hand. Jan. 107
Polyamides make soft hydrophilic finishes... July 163
Polyethylene emulsions – making good emulsions ..... July 176
Polyethylene tufted carpet backing makes debut from Great Britain ..... Dec. 99
Polymer processing prepares fabrics for lamination layer ..... Sept. 82
Polymers of formaldehyde, applied in vapor phase with an organic alkaline catalyst, encapsulate cotton fiber – SURDD ..... June 86
POG permanently makes polyester hydrophilic..... Aug. 130
PVA size removal – how to make it work.... Feb. 94
Poundage of wool treated to be machine washable increasing ..... Feb. 89
Preboarder dries panty hose quickly (ESN)... Nov. 141
Presensitizing process makes woolens easy to finish, retain flat surface..... Nov. 119
Pressing machine (ESN) ..... Dec. 167
Prewet cotton reduces stretch loss, keeps creases in formaldehyde treatment ..... June 87
Radioactive isotopes monitor consistency of finish content in wet-on-wet finishing processes ..... June 87
Resilient roll boosts production (ESN)..... Mar. 128
Rewind table cuts fabric scrap (CC) ..... Feb. 114
Roll covers run 12 times longer (CC)..... Jan. 100
Rotary screen step-and-repect machine(ESN). Feb. 144
Sample dyeing machine (ESN) ..... Feb. 146
Scouring machine (ESN) ..... June 146
Seersucker effects possible on acrylics..... Jan. 106
Selective shrinking machine (ESN) ..... Jan. 159
Semidecater (ESN)..... Sept. 150
Shear (ESN) ..... Nov. 145
Shell loader cuts labor in half (CC)..... Dec. 129
Shrinkproofing
Chemical mix used for shrinkproofing wool . Feb. 88
Combination of polyamines improves shrink-proofing process for wool..... Oct. 94
New process makes worsteds machine washable ..... Dec. 97
Organic acid, peroxide make wool shrink-proof ..... July 161
Polyurea solution shrinkproofs wool ..... Sept. 82
Polyureas formed in situ will shrinkproof wool..... May 107
Shrinkproofing process leaves wool soft, strong ..... July 161
Treatment makes wool water-, shrinkproof.. Sept. 82
Want zero shrinkage in wool? Try diisocyanates in solvent solutions..... June 85
Silicone finish improves recovery of bulky knits..... Oct. 93
60,000 pounds of circular knits is all in a day's work at Carolina Mills ..... Oct. 106
Slitting machine (ESN) ..... Feb. 156
Sodium borohydride protects polyamide fibers from the action of light and heat..... June 87
Soil release
Fluoroalkyl compounds, amine-aldehydes will produce good soil-release effects.... Mar. 95
Group says laundering is key to SR performance ..... Feb. 87
Hydrophilic polyester has soil-resistant properties ..... Oct. 94
Japanese SR finish is also flame resistant. Feb. 88
SR finish rejects oily particulate soil in DP fabrics ..... Jan. 105
What's ahead for soil release? ..... May 112
Soluble yarn component produces stretch fabrics..... Aug. 130
Solvent-bonded nonwoven is soft and strong . Dec. 98
Solvent degreasing of cottons..... Mar. 97
Solvent finisher (ESN)..... Aug. 150
Solvent process stabilizes woolens, retains fabric creases during laundering..... Jan. 107
Spinners Processing Co.'s no-fuss, no-feathers approach to finishing cotton yarns..... Sept. 93
Spreader rolls improve fabric quality (ESN) .. Sept. 129
Steamer processes sheetings (ESN) ..... Aug. 157
Steamer-setter (ESN)..... Aug. 150
Stoker ups towel finishing 66% (CC) ..... June 116
Straightener aligns to 0.7% (CC)..... Nov. 107
Straightener saves $38,000 yearly (CC)..... Mar. 86
SURDD: 6 new approaches to cotton finishes. June 85
System automates bleach monitoring (ESN).. Feb. 127
Talc to keep elastomeric fibers from sticking together ..... Sept. 84
Tenter pinning device (ESN)..... May 158
Tests on solvent scouring of wool look promising in English plant ..... Dec. 98
Textile burners (ESN)..... Sept. 154
Tints indicate yarn size removal efficiency.. Aug. 131
Treat triacetate fabrics with caustic..... Sept. 84
Treatment improves strength of cotton ..... Jan. 105
Two-roll finishing padder – Greenville Show ..... Dec. 110
Two-stage antifelting works by pH control... June 86
Ultraviolet radiation activates glyoxal, sulfones ..... Mar. 95
Unit dyes fabrics in low liquor ratios (ESN).. Oct. 112
Universal dyeing machine (ESN)..... Feb. 156
Vinyl-based polymers stop migration during drying ..... Sept. 83
Vinyl comes to carpet backing..... Aug. 137
Warp sizes (ESN)..... May 153
Wash-wear
Lubricants improve wash-wear finishes .... May 109
Moisture cure, high catalyst content are features of this wash-wear system ..... June 86
Polymerized dyes made washfast ..... Sept. 83
Stretching is secret to strong wash-wear fabrics ..... Aug. 131
Washing unit (ESN)..... Feb. 146
Water repellents
Antifoams need no emulsifiers ..... Sept. 81
Fluorocarbon-based water repellents for man-made fibers ..... Nov. 119
Improved with hydrophilic emulsifiers ..... July 163
Made durable with isotope grafting ..... Aug. 130
Solvent-based process waterproofs man-mades ..... Nov. 118
Treatment with solvent improves water repellents ..... Oct. 94
Unlikely adjuvants improve initial repellency..... May 107
Water repellent and dye are applied in one run..... Jan. 107
Waterproofed fabrics breathe after treatment ..... Oct. 95
Weft straightener (ESN)..... Feb. 144
What you need to build a hosiery finishing plant..... Jan. 119
Wool fiber treatment keeps knit goods flat .. July 162
Wool finish is stable to wetting: same solution produces stretch fabrics ..... Aug. 130

**Cleaners, textile-equipment**
Automatic bobbin cleaner (ESN) ..... Feb. 148
Automatic cleaner – Greenville Show..... Dec. 75
Card cleaning system (ESN)..... Feb. 130
Crane-mounted loom cleaner – Greenville Show ..... Dec. 75
Individual frame cleaner – Greenville Show.. Dec. 75
Kendall looks for $500,000 a year saving on $5.5-million Pelzer modernization..... Mar. 54
A new vacuum cleaning system – Greenville Show ..... Dec. 88
Spinning and winding cleaner (ESN)..... Feb. 144
Traveling cleaners (ESN) ..... Jan. 140
Vacuum saves $100,000 yearly (CC) ..... May 132

**Cleaning, plant-maintenance** (see **Maintenance, buildings and grounds**)

**Cloth room**
Casters (ESN) ..... May 162
Cloth roll has improved strength (ESN) ..... May 150
Cloth rolls last 400% longer (CC)..... Aug. 117
Examiner handles stretch goods (ESN)..... June 134
Fabric marker speeds inspection (CC)..... Oct. 78
How seven plants operate: clothrooms ..... July 91
Iron detector saves 20% on shears (CC) .... Mar. 83

(CC) Cost cutter. (Ed) Editorial. (ESN) Equipment & Supply News. (FYF) Fibers, Yarns, and Fabrics.

Kendall looks for $500,000 a year saving on $5.5-million Pelzer modernization ..... Mar. 54

Collins & Aikman – After 125 years: Still young at heart ..... Dec. 50
Comparative evaluations of cotton and man-made fibers..... Oct. 95
Fabric tester (ESN) ..... June 142
Fiber hooks – how they affect yarn processing performance ..... Feb. 58
Kendall starts a new 96-spindle, 4-loom mill... Sept. 68
Opener-blender speeds production of quality yarns at Greenwood Mills..... Dec. 61
Textile Research Institute meeting – flame retardancy consumes research interest ..... May 64

**Resins** (see **Chemical treatment and finishing; Dyes and chemicals**)

**Rolls**
Roll covers run 12 times longer (CC) ..... Jan. 100

**Roving and drawing**
Carding through twisting system (ESN) ..... Jan. 134
Chute-fed carding system (ESN) ..... Feb. 130
Cotton and worsted system (ESN)..... Feb. 130
Cotton spinning system (ESN)..... Jan. 136
Crazy Horse Mills ups production 600% ..... May 78
Drawing frames run all fibers (ESN)..... Oct. 112
Faller bars (ESN)..... June 140
Greenville Show products Dec. 71,..... Dec. 72
How seven plants operate: drawing and roving . July 65
How to choose oils for wool processing..... July 170
How to figure drawing sliver production..... July 95
Intersecting drawing frame (ESN) ..... Jan. 136
Plastic faller bars become as asset (CC) ..... Sept. 112
Polyethylene boots cut upkeep 5% (CC) ..... Mar. 86
Roving cradle (ESN)..... May 156
Roving frame – Greenville Show..... Dec. 70
Short-line worsted system (ESN)..... Jan. 134
Sliver condenser (ESN)..... June 146
Sliver evening device – Greenville Show..... Dec. 70
Tow-processing system – Greenville Show..... Dec. 70
Worsteds and man-mades system (ESN) ..... Jan. 133

**Rugs** (see **Carpets**)

## S

**Safety**
Electric eye saves $5,000 (CC)..... Mar. 84
Gas-fired equipment: boon, yes; BOOM, sometimes ..... Sept. 105
Special equipment cuts costs, boosts safety – Greenville Show..... Dec. 84
Television saves $12,000 per year (CC) ..... Oct. 77

**Sewing**
Butt seamer sewing machine – Greenville Show ..... Dec. 88

**Silk processing** (see process headings such as **Winding; Weaving, etc.**)

**Sizing** (see **Warp preparation and beaming**)

**Slashing** (see **Warp preparation and beaming**)

**Soil release** (see **Chemical treatment and finishing**)

**Spinning**
American system spinning frame – Greenville Show ..... Dec. 70
American Thread's Cherokee spinning plant 'displays tomorrow today' ..... May 52
Baked cots stop lapups (CC) ..... Aug. 118
Bobbin holder (ESN) ..... Nov. 161
Buffer grinds yarn rolls accurately (ESN) ..... Nov. 141
Can-spinning frame – Greenville Show..... Dec. 72
Carpet-yarn spinning (ESN) ..... Feb. 128
Collins & Aikman: Troy plant..... Dec. 59
Conso Products caps its vertical integration... Sept. 50
Continuous yarn-making (ESN)..... Feb. 128
Conversion saves $165,000 (CC) ..... June 116
Cotton and worsted system (ESN)..... Feb. 130
Cotton spinning system (ESN)..... Jan. 136
Double-dip slashing sparks STA seminar ..... June 75
Drafting system ups roving output 18% (CC) .. Aug. 118
Dual-speed drives reduce doff-cycle time by 12½% at Coats & Clark's, Acworth, Ga. plant. Nov. 79
Fact File – Equipment Update: spinning frames. July 151
Fiber hooks – how they affect yarn processing performance ..... Feb. 58
Frames reduce spinning labor 50% (CC)..... Jan. 100
Georgia plants check dual speed drives – Georgia TOE meeting..... June 74
Greenville Show products ..... Dec. 72
Hartwell Mills: You CAN teach an old mill new tricks ..... Jan. 64
High-speed spinning frame – Greenville Show.. Dec. 71
Holder speeds up bobbin doffing (ESN) ..... Mar. 127
How seven plants operate: spinning ..... July 69
How to process rayon-cotton blends on conventional cotton system (FYF) ..... June 127
Kendall looks for $500,000 a year saving on $5.5-million Pelzer modernization..... Mar. 54
Open-end spinning frame – Greenville Show ... Dec. 72
Output up on balloonless frame (ESN) ..... Nov. 141

Picker life is up five-fold (CC)..... June 115
Poland – Aged-looking plant nurses newborn equipment – Overseas report ..... June 66
Polyester, silk team up for shuttless loom neckwear..... Aug. 60
Reed draw-in machine (ESN) ..... Jan. 144
Schottland Mills' new knits take the strain off wovens ..... Sept. 55
Shuttle looms (ESN)..... Feb. 148
Shuttleless, conventional looms move forward – Greenville Show..... Dec. 76
Shuttleless looms (ESN) Feb. 136, 148, ..... Feb. 148
Souhan Textiles: marketing is the mecca ..... Feb. 68
Springs Mills spends $9.5-million to modernize its Fort Mill plant ..... June 56
Stevens' new Walterboro plant – glass weaving spells total design..... Feb. 50
Supplies for looms – Greenville Show ..... Dec. 80
System speeds jacquard pattern (ESN)..... June 134
Temples boost loom output 1.1% (CC) ..... Jan. 100
3-position dobby (ESN)..... Jan. 140
Two-in-one needle loom (ESN)..... Jan. 140
Waiting time: How much of a profit eater? Simulation suggests how one company could cut costs by $8,000 a month ..... Nov. 65
Warp sampling machine (ESN) ..... Jan. 142
Warp-tying machines (ESN) Jan. 148, ..... Jan. 155
Weaving breakthroughs create 3-D space-age fabrics..... Mar. 40

**Winding, spooling, twisting, throwing, and quilling**
Automatic cone winder (ESN) ..... Jan. 158
Automatic filling winding (ESN) ..... Jan. 148
Blanchard story: New textured yarn plant is swinging into gear..... Dec. 64
Bobbin-handling system (ESN)..... Jan. 136
Cake opener (ESN)..... Aug. 157
Carding through twisting system (ESN) ..... Jan. 134
Circular cone winder (ESN) ..... Feb. 138
Cone winder (ESN)..... Jan. 158
Crazy Horse Mills ups production 600% ..... May 78
Electronic bobbin tester (ESN) ..... Jan. 154
Fact File – Equipment Update: Cone winders .. July 154
False-twist attachment (ESN) ..... Jan. 155
False-twist machines (ESN) Feb. 148, ..... Feb. 155
Greenville Show Products ..... Dec. 74
How seven plants operate: winding..... July 73
How to figure spooler efficiency ..... July 95
Improving the winding operation ..... July 93
Kendall looks for $500,000 a year saving on $5.5-million Pelzer modernization ..... Mar. 54
Narrow fabrics company, Chelsea Industries Inc., boosts earnings 109% in four years..... May 74
New twister draws heavy denier yarns (ESN) .. June 133
Pirn stripper (ESN)..... Mar. 140
Process twists, plies, or makes novelty yarns on winding machine (FYF) ..... Mar. 71
Ring spinning system (ESN)..... Aug. 150
Skein reeler and winder (ESN)..... Aug. 150
Slitter-rewinder (ESN)..... May 158
Spooling and blocking machine (ESN) ..... Oct. 122
Springs Mills spends $9.5-million to modernize its Fort Mill plant ..... June 56
Stapler (ESN) ..... Aug. 153
Stevens' new Walterboro plant – glass weaving spells total design..... Feb.
Tension letoff is programed (ESN)..... Mar. 1
Textured yarn winder (ESN) ..... Jan. 1
Texturizer (ESN)..... Jan. 1
Tire-cord twister ups production (ESN) ..... Feb. 1
Twist-crimping machine (ESN)..... Jan. 1
Twister (ESN)..... July 2
Two-for-one twister frame (ESN)..... Jan. 1
Ultra-high-speed crimper – Greenville Show ... Dec.
Unrolling mandrel runs uneven tubes (ESN).... Mar. 1
Untwisting device ups hosiery output (ESN)... Oct. 1
Warp-tying machine (ESN) ..... Jan. 1
Wind-up unit – Greenville Show..... Dec.
Winder is fully automatic (ESN)..... Mar. 1
Winder runs small lot production (ESN) ..... Mar. 1
Winder system (ESN)..... Sept. 1
Winders (ESN) Mar. 130, June 146, Aug. 152,. Aug. 1
Winding and spinning system (ESN)..... Jan. 1
Yarn clearer (ESN) Jan. 154, ..... Feb. 1

## Y

**Yarns, manufacturing of**
American Thread's Cherokee spinning plant 'displays tomorrow today' ..... May 5
Blanchard story: New textured yarn plant is swinging into gear ..... Dec. 6
Cone bagging comes of age at S-T-C ..... June 7
Conso Products caps its vertical integration... Sept. 5
Hartwell Mills: You CAN teach an old mill new tricks..... Jan. 6
Humidifier cuts yarn-needle breakage (CC).... Feb. 11
Johnston Mfg.'s giant sales-yarn plant produces 155,000 pounds a week ..... Feb. 6
Magee makes the big move into indoor-outdoor carpets ..... Jan. 7
Opener-blender speeds production of quality yarn at Greenwood Mills ..... Dec. 61
The pace of change 1868–2068 (Centennial Issue)
Yarn manufacturing
The next 100 years ..... Apr. 9
The past 100 years ..... Apr. 98
Precision bobbin has top strength (ESN) ..... Feb. 127
Republic Textile Mills: Old weaving mill to new yarn plant – a 4-mo. changeover..... Jan. 57
Riverside Mills
Pt. 1 Continuing modernization keeps carpet yarn output high..... May 68
Pt. 2 Finishing operation caps company's forward integration ..... May 123
Souhan Textiles: marketing is the mecca ..... Feb. 68
Springs Mills spends $9.5-million to modernize its Fort Mill plant ..... June 56
Three ways to make false-twist yarn..... July 101
Ultra-high-speed crimper – Greenville Show ... Dec. 72

**Yarns, new**
Acrylic yarn produces multicolor effects (FYF) . Jan. 88
Allied Chemical's new "touch" apparel nylon has a hand that is different (FYF) ..... Nov. 91
Core yarns bring back paper knits..... July 107
Filament acrylic yarn debuts in United States (FYF)..... Jan. 86
Fine-denier olefin yarns used in upholstery (FYF)..... July 197
How to blend fibers and improve break factors without in-plant tests ..... Mar. 44
Nylon-acetate yarn: key to different texture (FYF)..... Jan. 88
Nylon feeder yarn for stretch hosiery fits well, has fashionable "wet" look (FYF) ..... Nov. 94
The pace of change 1868–2068 (Centennial Issue)
Fibers
The next 100 years ..... Apr. 208
The past 100 years ..... Apr. 211
Polyester cord in radial-ply tires (FYF) ..... Dec. 152
Polymer-modified nylon carpet yarn adds up to reduced soiling effects (FYF)..... Aug. 103
Rayon tire cord, high-modulus, developed for belt plies of belted-bias tires (FYF) ..... Dec. 152
Slit-film process folding action eliminates twisting of olefin filaments (FYF) ..... Jan. 86
Textured yarns in menswear will triple by 1971 in men's knit explosion: Laun (FYF) ..... Nov. 92
Toyo develops permanently antistatic filament yarn (FYF) ..... Jan. 87
Yarn bulking machine (ESN)..... Aug. 159

(CC) Cost cutter. (Ed) Editorial. (ESN) Equipment & Supply News. (FYF) Fibers, Yarns, and Fabrics.

# Index to Companies and Mills

## A

ADAMS-MILLIS CORP. – How to make it big in seamless nylon hosiery ... Aug. 53
ALDON RUG MILLS – Pt. 1 Aldon makes what it can sell, and boosts sales $40 million since 1962 ... Oct. 60
Pt. 2 Aldon goes South to expand in tufteds ... Oct. 63
Pt. 3 Finishing makes the carpet ... Oct. 98
AMERICAN THREAD CO. – New Cherokee spinning plant 'displays tomorrow today' ... May 52
AMOS HOSIERY MILLS – What you need to build a hosiery finishing plant ... Jan. 119
APEX CARPET FINISHERS INC. – Vinyl comes to carpet backing ... Aug. 137
AVONDALE MILLS – Communication is a two-way street. J. C. Smith ... Apr. 268

## B

BARWICK CARPET MILLS INC. – How Barwick Mills boosts color, styling possibilities for carpeting ... Jan. 114
"What the tufted industry must do". E. T. Barwick ... Apr. 277
BERWICK WEAVING INC. – French shuttleless looms turn on versatility in weaving – first U.S. installation ... June 50
BLAIR MILLS – Special features in Fact File Issue:
Opening ... July 62
Carding ... July 63
Drawing and roving ... July 65
Spinning ... July 69
Winding ... July 73
Warping ... July 77
Slashing ... July 81
Weaving ... July 83
Clothrooms ... July 91
BLANCHARD YARN CO. – New textured yarn plant is swinging into gear ... Dec. 64
BLUE RIDGE-WINKLER TEXTILES – How a 'one-of-a-kind' system dyes nylon tricot continuously ... June 92
BONDATEX MILLS – Bondatex is hot in flame-bonding ... June 101
BURLINGTON INDUSTRIES INC. – The world's largest woos the consumer. S. S. Greenblatt ... Apr. 378

## C

CAMDEN FIBER MILLS CO. – 80,000-sq.-ft. plant makes nonwovens only ... Jan. 62
CANADIAN CELANESE CO. – Wide range of man-made fibers gives market flexibility. Charles Law ... Aug. 56
CANTON COTTON MILLS INC. – Computer spells control – and profit: report to ATMI's Textile Data Processing Seminar ... Sept. 60
CAROLINA MILLS – 60,000 pounds of circular knits is all in a day's work ... Oct. 106
CHELSEA INDUSTRIES INC. – Narrow fabrics company boosts earnings 109% in four years ... May 74
COATS & CLARK INC. – Dual-speed drives reduce doff-cycle time by 12½% at Acworth, Ga. plant ... Nov. 79
COLLINS & AIKMAN – After 125 years: Still young at heart ... Dec. 50
COMET DYE WORKS – How to dye wool top continuously – and get more for your money ... Nov. 126
CONSO PRODUCTS – Caps its vertical integration ... Sept. 50
CONSTELLATION FINISHING – Carpet printing: a new frontier ... Oct. 102
CRANSTON PRINT WORKS – How to get better desizing ... Dec. 104
CRAZY HORSE MILLS – Yarn maker ups production 600% ... May 78

## D

DAN RIVER MILLS INC. – "Necessity is the mother of invention." R. S. Small ... Apr. 272
DEERING MILLIKEN INC. – "A look at the last 20 years points the way." Roger Milliken ... Apr. 269

## E

EAGLE CARPET MILLS – New way to condition the hard-to-heat tufting plant ... Nov. 70

## F

FULTON COTTON MILLS – Merger trend overtakes two centenarians ... Apr. 390

## G

GALLERY PRINTS LTD. – How to screen-print cut pieces semiautomatically – with reactives ... Aug. 145
GREENWOOD MILLS – Opener-blender speeds production of quality yarn ... Dec. 61

## H

HANES CORP. – "Adapt and survive – innovate and grow." Gordon Hanes ... Apr. 271
HARTWELL MILLS – Special features in Fact File Issue:
Opening ... July 62
Carding ... July 63
Drawing and roving ... July 65
Spinning ... July 69
Winding ... July 73
Warping ... July 77
Slashing ... July 81
Weaving ... July 83
Clothrooms ... July 91
You CAN teach an old mill new tricks ... Jan. 64
HERTEL FABRICS INC. – Berwick Weaving Inc. – French shuttleless looms turn on versatility in weaving – first U.S. installation ... June 50
HOLLINGSWORTH & VOSE CO. – Capitalizes on papermaking knowledge ... Jan. 63

## I

INMAN MILLS – "Automate, innovate or liquidate." J. A. Chapman, Jr. ... Apr. 273

## J

JOHNSTON MFG. CO. – Giant sales-yarn plant produces 155,000 pounds a week ... Feb. 63
JORDAN MILLS – Jordan jumps the generation gap
Pt. 1 Management and manufacturing ... Sept. 62
Pt. 2 Dyeing ... Sept. 88

## K

KALKSTEIN SILK MILLS – Polyester, silk team up for shuttleless loom neckwear ... Aug. 60
KEM-WOVE INDUSTRIES INC. – Teases fibers to make them behave ... Jan. 58
KENDALL CO. – Capacity grows to meet demand. Jan. 62
New 96-spindle, 4-loom mill ... Sept. 68
"Nonwovens are a challenge to change." H. T. Marshall ... Apr. 275
Pelzer Apparel plant and Pelzer Diaper plant – special features in Fact File Issue:
Opening ... July 62
Carding ... July 63
Drawing and roving ... July 65
Spinning ... July 69
Winding ... July 73
Warping ... July 77
Slashing ... July 81
Weaving ... July 83
Clothrooms ... July 91
Pelzer Upper Plant – Kendall looks for $500,000 a year saving on $5.5-million modernization ... Mar. 54
KERR BLEACHERY & FINISHING WORKS – How to give standard fabrics a three-dimensional send-off ... Feb. 100
KIMBERLY-STEVENS CORP. – Looks for nonwovens growth ... Jan. 63

## L

LOWENSTEIN, M. & SONS INC. – "Management practices hold the key." Robert Bendheim ... Apr. 276

## M

MAGEE CARPET CO. – The big move into indoor-outdoor carpets ... Jan. 73
MAYFAIR MILLS – "New leaders must be innovators." F. H. Dent ... Apr. 270

## N

NEWRAM KNIT PROCESSING CO. – Dyeing knits: a 3-way play ... Sept. 98
NICETOWN DYEWORKS – Man-made fiber boom thrusts constant change upon yarn dyer ... Aug. 143

## P

PELLON CORP. – Cracks new markets with cohesive spun webs ... Jan. 60
PINE STATE KNITWEAR – How to cut acrylic dyeing time and boost capacity – at little cost ... Mar. 115
POLTEX COTTON INDUSTRY WORKS – Aged-looking Polish plant nurses new-born equipment. Pressley & Szmidt ... June 66
PRECISION PROCESSES LTD. – New oxidation-reduction process improves reactive dyeing of wool. A. J. Hall ... Jan. 127

## R

REPUBLIC TEXTILE MILLS – Old weaving mill to new yarn plant – a 4-mo. changeover ... Jan. 67
REVERE FINISHERS – Vinyl comes to carpet backing ... Aug. 137
RIVERSIDE MILLS – Pt. 1 Continuing modernization keeps carpet yarn output high ... May 68
Pt. 2 Finishing operation caps company's forward integration ... May 123

## S

SADIE COTTON MILLS CO. – How a small independent boosts yarn output 55% in three years ... Oct. 66
SALMON, KURT ASSOCIATES INC. – Simulation suggests how one company could cut costs by $8,000 a month. C. R. Phillips ... Nov. 65
SCHOTTLAND MILLS – New knits take the strain off wovens ... Sept. 55
SCREEN PRINTS INC. – Towel printing takes over Smyrna, S.C. ... Feb. 105
SOUHAN TEXTILES – Marketing is the mecca ... Feb. 68
SPINNERS PROCESSING CO. – A no-fuss, no-feathers approach to finishing cotton yarns ... Sept. 93
SPRINGS MILLS INC. – Computers in a bright package: new customer service center ... Sept. 66
Fort Mill plant – $9.5-million spent on modernization ... June 56
Fort Mill plant – special features in Fact File Issue:
Opening ... July 62
Carding ... July 63
Drawing and roving ... July 65
Spinning ... July 69
Winding ... July 73
Warping ... July 77
Slashing ... July 81
Weaving ... July 83
Clothrooms ... July 91
STANDARD-COOSA-THATCHER – Cone bagging comes of age ... June 78
STANDARD COTTON PRODUCTS CO. – Padding softens auto seats ... Jan. 61
STEARNS & FOSTER CO. – Engineers its non-woven products ... Jan. 58
STERLING PILE FABRICS INC. – Getting durable press for corduroy fabrics the pad-dry-cure way ... Nov. 122
STEVENS, J. P. & CO. – Glass weaving spells total design at new Walterboro plant ... Feb. 50
Marketing is the way to make it big. R. D. Farrell ... Apr. 384

## U

UNITED ELASTIC CORP. – Merger trend overtakes two centenarians ... Apr. 390

## W

WESTPOINT-PEPPERELL INC. – "Four great challenges lie ahead." J. L. Lanier ... Apr. 274
Carter and Lanier plants – special features in Fact File Issue:
Opening ... July 62
Carding ... July 63
Drawing and roving ... July 65
Spinning ... July 69
Winding ... July 73
Warping ... July 77
Slashing ... July 81
Weaving ... July 83
Clothrooms ... July 91
